NASHVILLE, Tenn., March 19. - Two girls lie dead from arsenic taken in a cup of coffe, three others of the family are sick with the poison, and the brother of the girls, a 16 year old youth, is watched by the police as he lies on his sick bed under suspicion of being answerable for the crime.

At their home, No. 1,703 Broad street, Mrs. R. M. Melrose and her five children sat down to supper, the latter being Robert, David, Minnie, Mattle and Katie. Katle, aged 14 years, died at 8 o'clock in the morning, and Mattie, aged 17, died about an hour and a half later.

While the inquest has not been completed such facts were brought out as caused Chief Clack to leave an officer in charge of Robert Melrose, who lies sick from the poison himself. All except Robert was taken very sick at the table, and despite medical attendance the two girls died. Rober Meirose did not oppear to be ill when he went for the doctor, and the attention of the doctor was not and the attention of the hoctor was not called to him. In the doctor's opinion had Robert taken the coffee containing the arsenic at night the effect would not have been delayed until morning.

Minnie Melrose stated that her mother sat at the head of the table, Katie on her left, and David, Mattie, Minnie and Robert in the order named. So far as she could recall the facts, her mother drank about two-thirds of her cup of coffee, Katie half a cup, David a very small quantity and witness very little. In regard to Robert, witness did not appear to be positive as to the quantity.

His sister Minnie went into the kitchen and found him skimming the top of the coffee with a case knife and placing in a plate the deposit which was taken up on the knife blade. She also noticed that there was less coffee in that cup than when she last saw it, and she accused him of drinking it. This he denied, but was very soon afterward suffering as had the other members of the family after they had drank coffee in the evening. About a month ago Robert Melrose returned from Chicago. BERLIN, March 19.-The socialists cession to Friedrichshain, to decorate the burial places of the victims who were killed by the military on the memorable day in 1848 when the King and Queen of Prussia stood with uncovered heads before the dead. No disorder attended the procession and the graves were quietly decorated.

The police, who were watching the procession in considerable force, at once made a rush for the shouters, who were mostly young men.

The people then hustled the police, and tried to compel them to release the captives. The police made a call for aid, and a large force, which had been in reserve, hurried to their assistance. Drawing their swords the police made a charge on the crowds, slashing right

PUT TO THE TEST.

Blood Exist in Dead Bodies. PROVIDENCE, R. L., March 19 .- A horgathered in thousands and went in pro- rible superstition has been put to the test in Exeter. The wife of George Brown of that town died of consumption about eight years ago. Six years ago the oldest daughter succumbed to the same disease, leaving the other members of the family in apparently good health. Shortly after a son was taken sick, and went to Colorado about 18 months ago with the hope of recruiting his health. During his absence the past winter an-other daughter, Mercy Lena, passed away after a few months sickness.

A few weeks ago the son came back to Rhode Island, and is now critically III. Since that time Mr. Brown has been besieged by a number of people who ex-pressed implicit faith in the old theory that by some unexplained and unreasonable way in some part of the deceased relatives body live flesh and blood might be found, which is supposed to feed on the living who are in feeble hehlth.

Mr. Brown did not place much cred ence in the old-time theory, and resisted their importunities until Wednesday, when the bodies of the wife and two daughters were exhumed and an exam-

Nothing but skeletons were found of the bodies of the wife and eldest daughter and, after examination of the body of Mercy Lana, which was buried nine weeks ago, Dr. Metcalf reported the body in a state of natural decomposition. When the heart and liver were removed a quantity of blood dripped from them, but the doctor said this was nothing unusual. The heart and liver were cremated and the bodies reinterred.

New York, March 19.-Charles Mitshell and Frank P. Slavin are afraid to face public opinion in New York and have cancelled their engagement with Harry Miner, at whose theatre they were billed to spar next week.

Mitchell is the business man of the pair. He says that he fears that a warm reception would be accorded him in America, simply because he is not matched to fight Sullivan.

Mitchell and Slavin did not get a cor dial reception when they first arrived in this country, and went away from this city with anything but a good opinion of those who guyed them when they boxed in a Brooklyn theatre a few days after their arrival from England.
